

# Ceiling Mount AC1200 Dual-Band Wireless Indoor Access Point

Joining the Electron Series' expansive line of mix-and-match business-class networking products, the EnGenius EAP1200H is a Ceiling Mount AC1200 Dual Band Wireless Indoor Access Point designed for spacious interior environments including large homes and offices, small and mid-sized business, multi-floor buildings, hotels, hospitals and other settings where network expansion is needed. The EAP1200H features dual-band, concurrent operations with Band Steering and combines high-transmit power, enhanced receive sensitivity MIMO and 4 internal high-gain antennas providing expanded user capacity, maximized network performance and greater device network connectivity.

Achieving the latest 802.11ac speeds and superior, super fast 5 GHz performance, the EAP1200H yields up to 867 Mbps data rates on the 5 GHz band and up to 300 Mbps speeds on the 2.4 GHz band supporting the newest laptops, tablets and cell phones at speeds nearly 2Xs faster than previous wireless standards.

An expert in wireless communications and RF technology, EnGenius delivers feature-rich, long-range wireless communications technology for voice and data. The versatility and performance of the company's solutions lower total cost of ownership, increase productivity and maximize return on investment.

## Key Features

- 802.11ac wireless speeds up to 867 Mbps on 5 GHz band
- 802.11n wireless speeds up to 300 Mbps on 2.4 GHz band
- Low-profile design features internal antennas and smoke detector-style ceiling mount housing
- Up to 26 dBm transmit power per band for longer range and enhanced wireless coverage
- Internal 3D Sectorized Antenna Array that minimizes RF interference
- Dual-Band-capable for expanded user capacity and support for higher bandwidth applications
- Band Steering detects Dual-Band clients, shifting them to 5 GHz while optimizing data flow
- Power-over-Ethernet (PoE)-compatible for flexible power options with PoE 802.3at-capable Switches or the EnGenius Gigabit PoE Injector EPE-4818G
- Easy AP monitoring through EnGenius' SNMP-based EZ Controller software
- Fast Roaming with PMKSA support for enhanced security when roaming between neighboring APs
- Secured Guest Network option keeps primary network secure, limiting Internet resources
- SSID-to-VLAN Tagging – tag and assign different user access rights on the company VLAN
- Supports IPv4/IPv6
- Designed for use in: large homes and offices, small and mid-sized businesses, multi-floor buildings, hotels, hospitals and other settings where network expansion is needed

## Accelerated Dual-Band Performance with Band Steering

The EnGenius EAP1200H leverages the accelerated speed and performance of 802.11ac laptops and other devices ensuring smooth, rapid wireless HD video streaming and large file transfers. This AP features speeds up to 867 Mbps on the 5 GHz band, when associated with AC client devices, and up to 300 Mbps on the 2.4 GHz band.

Its Dual-Band feature expands user capacity, and like a traffic cop, Band Steering automatically directs Dual-Band clients to the less congested 5 GHz frequency, maximizing efficiency and network performance to a large number of clients simultaneously.

## Powerful, Long-Range Connectivity

With powerful connectivity capacity, the EAP1200H's integrated, sectorized 3D antenna array transmits up to 26 dBm of power per band providing more than 2Xs greater coverage over mainstream competitor's solutions. Combining high-transmit power, enhanced receive sensitivity MIMO (Multiple In/Multiple Out) and high-gain Internal 5dB; antennas, the AP's wireless signal is able to penetrate floors, ceilings and walls for greater device connectivity.

## Customize Wireless Access for Different Departments or Workgroups

Create and configure up to eight (8) separate wireless networks per frequency band for a total of 16 SSIDs. Utilizing SSID-to-VLAN tagging (802.11q) can help increase security, network reliability and conserve bandwidth by limiting who has access to connect.

## Secured Guest Network Option

Establish and secure Guest Networks and control access to company computers and servers. Limit Internet resources available to visiting customers, clients and vendors and ensure your company network and servers are kept secure from sophisticated Trojans and malware that can use guest's mobile devices to attack your network.

## Low-Profile Design & PoE Support

Its award-winning, low-profile design blends nicely with other common building appliances, making it perfect for settings where room aesthetics or a more discrete ceiling placement is desired. Because the EAP1200H is designed for deployments on ceilings, where power outlets may be scarce, it can be powered via Power-over-Ethernet (PoE) from an 802.3at-rated Switch or used with the EnGenius Gigabit PoE Injector EPE-4818G 802.3at-capable PoE Injector.

## Fast Roaming with Enhanced Security

When used with a RADIUS server, the EAP1200H's Fast Roaming feature supports PMKSA that distributes and caches a designated WPA/WPA2-Enterprise encryption key to neighboring EAP Access Points. Together with the Fast Handover feature, the AP automatically initiates a secure client transfer from one EAP Access Point to the next nearest AP with a stronger signal, keeping clients continuously and seamlessly connected to the network.

## Flexible Modes for Versatility

Easily configure the EAP1200H as an Access Point or WDS AP or WDS Bridge based on user needs in each frequency band. This allows multiple operation combinations on a single device to address specific deployment requirements.

## Simplified AP Monitoring

For simplified Wireless AP monitoring and sequential firmware upgrades after deployment, IT managers can download the free the SNMP-based EZ Controller software for Windows, Mac OSX and Linux. Since software is not required, set up and configuration is completed quickly through the Access Point's web User Interface or optional EZ Controller software.

## Technical Specifications

<b>Standard</b>	<b>Transmit Power (combined)</b>	Client Limit	<b>Dimensions &amp; Weights</b>
IEEE 802.11a/n/ac on 5 GHz	2.4 GHz up to 26 dBm	RADIUS Accounting	<b>EAP1200H Device</b>
IEEE 802.11b/g/n on 2.4 GHz	5 GHz up to 26 dBm	Mobility: PMKSA for Fast Roaming	Weight: 0.62 lbs. (28.12 g)
IEEE 802.3at		Firmware Upgrade: Web UI/CLI	Diameter: 6.36" (161.54 mm)
	<b>Radio Chains/Spatial Streams</b>	Backup/Restore	Height: 1.64" (41.66 mm)
<b>Antenna</b>	2 x 2: 2	Save Configuration as Default	
(4) Integrated 3D Sectorized Antenna Array		Auto Reboot	<b>Packaging</b>
(2) Internal 5 dBi on 2.4 GHz	<b>Supported Data Rates (Mbps)</b>	Email Alert	Weight: 1.42 lbs. (644.10 g)
(2) Internal 5 dBi on 5 GHz	2.4 GHz: Max 300		Length: 12" (304.80 mm)
	5 GHz: Max 867	<b>Control</b>	Width: 9" (228.60 mm)
<b>Physical Interface</b>	802.11b: 1, 2, 5.5, 11	EnGenius EZ Controller	Height: 3" (76.2 mm)
1 x 10/100/1000 Gigabit Ethernet Port with PoE support	802.11a/g: 6, 9, 12, 18, 24, 36, 48, 54	CLI Supported (Telnet/SSH)	
1 x Reset Button	802.11n: 6.5 to 300 (MCS0 to MCS15)	Multicast Supported	<b>Master Carton</b>
1 x Power Connector	802.11ac: 6.5 to 867 (MCS0 to MCS9, NSS=1 to 2)	Band Steering	Weight: 24 lbs. (10.89 kg)
			Length: 19" (482.60 mm)
<b>Physical Security</b>	<b>Supported Radio Technologies</b>	<b>Security</b>	Width: 15.25" (387.35 mm)
1 x Kensington Security Slot	802.11b: Direct-Sequence Spread Spectrum (DSSS)	WEP Encryption: 64/128/152-bit	Height: 13" (330.20 mm)
	802.11a/g/n/ac: Orthogonal Frequency-Division Multiplexing (OFDM)	WPA/WPA2 Personal (WPA-PSK using TKIP or AES)	No. of boxes per master carton: 10 units
<b>LED Indicators</b>		WPA/WPA2 Enterprise (WPA-EAP using TKIP)	
1 x Power	<b>Channelization</b>	802.1X RADIUS Authenticator: MD5/TLS/TTLS, PEAP	<b>Package Contents</b>
1 x LAN	802.11ac with 20/40/80 MHz channel width	SSID Broadcast Enable/Disable	EAP1200H Dual Band AC1200 Ceiling Mount Indoor Access Point
1 x 2.4 GHz	802.11n with 20/40 MHz channel width	Hidden BSSID	Power Adapter (12V/2A)
1 x 5 GHz	802.11a/b/g with 20 MHz channel width	Client Isolation	T-Rail Mounting Kit
1 x WPS		L2 Isolation	Ceiling and Wall Mount Screw Kits
		MAC Address Filtering, Up to 64 Fields	Mount Brackets
<b>LED Control</b>		Wireless STA (Client) Connection List	Installation Template
On/Off		Https Support	RJ-45 Ethernet Cables
		SSH Support	Quick Installation Guide
<b>Power Source</b>	<b>Supported Modulation</b>		
Power Supply: 90 to 240 VDC ± 10%, 50/60 Hz	802.11b: BPSK, QPSK, 16-QAM, 64-QAM	<b>QoS (Quality of Service)</b>	<b>Certifications</b>
DC Input: 12VDC/2A	802.11a/g/n: BPSK, QPSK, 16-QAM, 64-QAM, 256-QAM	Supports 802.11e/WMM/Traffic Shaping Standards	FCC, CE, IC
PoE: Compatible with 802.3at	802.11ac: BPSK, QPSK, 16-QAM, 256-QAM	(WMM - Wireless Multimedia)	
			<b>Warranty</b>
<b>Memory Capacity</b>	<b>Management</b>	<b>Environmental &amp; Physical</b>	1 year
16 MB Flash	Auto Channel Selection	<b>Temperature Range</b>	
128 MB SDRAM	Multiple SSID: 16 SSIDs, 8 SSIDs per Radio	Operating: 32 °F to 122 °F (0°C to 50 °C)	
<b>Wireless &amp; Radio Specifications</b>	SNMP V1/V2c/V3	Storage: -4 °F to 140°F (-20 °C to 60 °C)	
Dual-Band, Dual-Concurrent Radio	MIB I/II, Private MIB		
	VLAN Tag/VLAN Pass-through	<b>Humidity (non-condensing)</b>	
<b>Operation Modes</b>	Wireless Clients List	Operating: 90% or less	
Access Point	Guest Network	Storage: 90% or less	
WDS Bridge	Fast Roaming		
WDS Access Point	Fast Handover		

## RF Specifications (Aggregated Value)

Channel	Data Rate	Transmit Power (Combined, dBm)	Receive Sensitivity (Combined, dBm)
802.11b 2.4 GHz	1 Mbps	26.0	-92.0
	2 Mbps	26.0	-91.0
	5.5 Mbps	26.0	-91.0
	11 Mbps	26.0	-89.0
802.11g 2.4 GHz	6 Mbps	25.0	-88.0
	54 Mbps	22.0	-72.0
802.11a 5 GHz	6 Mbps	26.0	-90.0
	54 Mbps	23.0	-72.0
802.11n HT20 2.4 GHz	MCS 0 / 8	25.0	-88.0

### 2.4 GHz Elevation-Plane

### 5 GHz Azimuth-Plane

### 5 GHz Elevation-Plane

Maximum data rates are based on IEEE 802.11 standards. Actual throughput and range may vary depending on many factors including environmental conditions, distance between devices, radio interference in the operating environment, and mix of devices in the network. Compliant with FCC - This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his/her own expense.
