

## Instruction how to open FM configurator on Windows 8/10

### Purpose of the instruction

This instruction shows how to open configurator on Windows 8 or Windows 10 operation systems.

### Description

In case if an Error appears while opening FM configurator in newest windows versions, you have to make compatibility mode with oldest windows versions.

Press right mouse button on *Configurator.exe* file -> choose *Properties* -> *Compatibility* -> check: *Run this program in compatibility mode for:* -> choose *Windows 7* -> press *Ok* and then you'll be able to open the configurator.
